

Producer and creator of exotic plant concept in Senegal

GENERAL CATALOG 2023

Baobab Kits - Baobab Jackal Kits - Frangipani Kits - Baobab Buddha Kits - Doctor Moringa Kits - Cucumber Baboon Kits

The Végétaux d'Ailleurs International company presents the Baobab “ready to plant” kits.

These Kits are composed of a cardboard packaging with instructions in 10 languages, a Baobab plant (*Adansonia digitata*) 2/12 years old, a Baobab jackal plant (*Adenium obesum*) 2/7 years old, a cutting of fragrant white Frangipani (*Plumeria*) or a 3/5 year old Baobab Buddha (*Jatropha podagrica*) plant.

- The plants are placed in a protective solution (in order to avoid evapotranspiration), they can remain in their packaging between 2 and 6 months before transplanting (depending on the age of the trees, even if they wrinkle a little).

In their natural environment (hot and dry), these trees can patiently wait 9 months for the rainy season, which hardly lasts more than 2/3 months.

Manual :

Remove the plant from its packaging, prepare a pot or bucket with potting soil or cactus mix, transplant and water copiously.

Exposure to full light, let the soil dry between two copious waterings. Minimum 10 degrees.

Laterite fertilizer for Baobab and Jackal Baobab and Cucumber Baboon and flower plant fertilizer for *Adenium/Plumeria* and *Jatropha*.

***P.s. :** Possibility to take the trees out of the packaging (in order to keep them longer) and to put them in gauge in slightly damp sand/pozzolana/cactus mixture (in a room at 16/20° with a little light).

100% Organic Laterite Powder

Laterite is a red or brown rock, which is formed by weathering of rocks in tropical climates.

Food supplement for caudex plant, promotes the development of the caudex

(swollen part at the base of the trunk and underground) of the tree in nature and in the pot.

Put a spoon per month in the pot from April to May.

Produit fumigé par notre société.

(Phytosanitary approval number issued by

the Directorate of Plant Protection of Senegal (DPV))

CONDITIONS GENERALES DE VENTE 2023

ARTISANAL CHARACTER OF PRODUCTS

The characteristics of the products offered for sale are presented in this Catalogue. The photographs do not enter the contractual field. The responsibility of the company VEGETAUX D'AILLEURS INTERNATIONAL cannot be engaged if errors are introduced. The products offered are all of artisanal origin, made by hand. Minimal differences may appear between two same products (dimensions, weight) without the responsibility of the company VEGETAUX D'AILLEURS INTERNATIONAL being engaged.

VEGETAUX D'AILLEURS INTERNATIONAL manufactures refined decorative objects and distributes them to professionals.

We work according to fair trade criteria

PRICES – Prices are considered ex-work, they are established according to current economic conditions. They are prices that may be subject to change if economic or monetary fluctuations occur during the sales season.

The buyer will be informed, if applicable, of these modifications before shipment. The prices invoiced will be those in effect on the day of delivery. The prices in this catalog are unit prices already valued in the thousands.

The contract is validly concluded with regard to the seller only when he has confirmed his acceptance. The seller reserves the right to replace, unless otherwise ordered by the buyer, the missing items in the variety or size requested, by others of the variety, size and price that approach the more.

PAYMENT – Invoices are payable net on order and without discount on our SGBS account in Senegal.

In the event of late payment, the amount of the invoice will be increased by the current bank discount rate at that time in Senegal and per month of delay.

All costs resulting therefrom shall be borne by the buyer.

The seller retains ownership of the goods until full payment for the supply.

Shipments are made to most countries in the world. The buyer is the importer, he will have to make his personal business of the payment of customs duties, local taxes, import duties or state taxes, phytosanitary or fumigation certificate, or CITES CERTIFICATE likely to be payable. These duties and taxes are not the responsibility of Végétaux d'Ailleurs International. They will be the responsibility of the buyer and are his full responsibility both in terms of declarations and payments to the authorities and competent bodies of his country. We advise him to inquire about these aspects with his local authorities.

The shipment of plants can only be done if the customer is in good standing with the legislation on the import of plants from his country.

We can also bring our international expertise in this area to help you solve these administrative problems that we know perfectly well and which are generally the same in all countries.

All orders, whatever their origin, are payable in Euros.

The risks are borne by the buyer.

WAIVER OF CONTRACT BY BUYER - PENALTY CLAUSE

If before the dispatch of the goods, the buyer cancels entirely or partially, without valid reason, an order he has placed, he is required to pay the seller compensation in an amount equal to 30% of the value of the order or part of the order cancelled, without the seller having to provide proof that he has suffered a loss due to this cancellation.

DELIVERIES – The prices in this catalog are established on departure, all other additional costs (for special packaging, pallets, etc.) will be borne by the buyer. Packaging is never taken back. The goods travel at the buyer's expense and at his own risk (insurance may be taken out by the seller). If the buyer has not indicated the means of transport, the seller is authorized to take care of it himself, without his being responsible for it. Shipments take place according to the date of arrival of the orders, subject to technical and weather conditions. The details given as to delivery times are only indicative and no complaint or refusal to send is accepted for advance or delay in delivery.

GUARANTEES AND COMPLAINTS – The seller is not responsible for the leafing or the recovery of the plants sold because he cannot know how the products will be treated afterwards. In all cases when sending outside Senegal, the customer is the importer of the product, the goods travel at the risk and peril of the customer. The customer must check before ordering that the products he is ordering can be delivered to his country or department/territory of destination. The customer must make sure to carry out all the declarations necessary for this importation. Végétaux d'Ailleurs International declines all responsibility in the event of partial or total blockage of the package(s) by customs or others.

In the event that a buyer has to complain of obvious defects in the goods, he must notify his complaints to the seller by registered letter with acknowledgment of receipt sent within five days of delivery. A complaint not notified within the deadlines specified above will have no effect, whatever the causes.

For each complaint duly substantiated and accepted by the seller, the buyer will obtain a credit note to be worth on the order to come, but he cannot claim to be compensated in other respects (loss of profit, etc.). Any agreement to replace the goods will be considered as a separate order.

SKILL

For all orders, the legal domicile of the seller is Dakar.

In the event of a dispute, only the Courts of Dakar will be competent, even in the event of a warranty claim or multiple defendants.

The direction
